

Venus-module

Versatile LED light with a high-quality tube, perfect for a variety of uses.

Key Benefits:

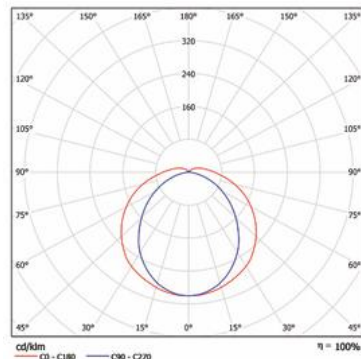

- **European Quality:** Made in Europe using top-tier LED modules and drivers from premium brands.
- **Built to Last:** Engineered for tough environments – performs reliably even in temperatures up to 55°C.
- **Robust PC/ABS Body:** Combines the strength of polycarbonate with the toughness of ABS for enhanced durability and impact resistance.
- **High-Quality PC Diffuser:** Made from polycarbonate for excellent light diffusion and high transparency, ensuring uniform illumination.
- **Hassle-Free Setup:** Quick and easy installation with minimal maintenance required.

- IP65
- High Lumen Efficiency
- Linkable (Option)
